

BEHRAD Nasoudi

Seo & Web Design

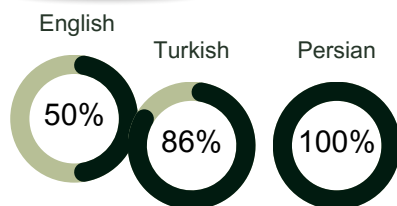

About Me

I am Behrad Nasoudi, a web designer and SEO specialist with over a year of experience in the digital world. My goal is to create beautiful, user-friendly, and optimized websites that not only appeal to visitors, but also shine in Google search results. In the projects I have done, I have always tried to provide the best user experience and make optimizations that bring sites to the highest search rankings. From responsive and modern website designs to advanced SEO strategies, my focus is always on achieving real and tangible results for businesses.

Experience in Search Engine Optimization (SEO)

-
- SEO for Saman Farabin:
- Implemented comprehensive optimization of all pages of the site using advanced techniques and data-driven strategies, which led to a significant improvement in rankings and a solid presence on the first page of Google.
-
- Design and SEO for com.pasbanguard:
- Design and implementation of the site with a focus on user experience and technical SEO principles, which resulted in a significant increase in organic traffic and placement of all pages on the first page of Google results.
-
- SEO for ir.pmem:
- Specialized optimization of CMMS software pages with a focus on maintenance and repair indicators, which, with the help of precise SEO strategies, raised the site's ranking from low positions to the first page of Google.
-
- SEO management for com.pargarnet:
- I was responsible for planning, implementing, and monitoring all SEO activities for this site. By carefully analyzing traffic data and user behavior, I identified the site's strengths and weaknesses and optimized the structure of the pages. Implementing targeted and consistent strategies resulted in a significant increase in the site's ranking in search results and a significant growth in organic traffic.
-
- SEO for Ahura Shoe Manufacturing Site (ahuragroup.co):
- Completely implementing SEO strategies independently and comprehensively, which within 6 months brought the site to the first pages of Google and significantly increased targeted traffic.
